

- 22 The diagram shows part of an electrical circuit. The currents in two of the wires of the circuit are shown.

What is the potential at P?

- A** 120 V **B** 180 V **C** 240 V **D** 300 V

- 23 An electron moves in a vacuum at an angle of 60° to a magnetic field of magnetic flux density 0.2 T .
