

- 4 A ball is released from rest and bounces on a hard surface. The graph shows how velocity varies with time.

P and Q are areas between the line of the graph and the time axis.

Which area represents the distance fallen by the ball until it first makes contact with the floor?

- A** P **B** Q **C** P + Q **D** P - Q

- 5 A lorry of mass 40 000 kg is subjected to a horizontal driving force of 63 000 N and total horizontal
