		zero.
25	**B**	Magnetic flux through the loop of wire

No.	Answer	Solution
		$\phi = B_{\perp}A$ $= \left(65\times10^{-6}\sin60^{\circ}\right)\left(12\times10^{-4}\right)$ $= 6.75\times10^{-8}$ $\approx 6.8\times10^{-8}$ Wb
26	**A**	Peak value of alternating current
