

- 3 A car accelerates from rest for 12 s along a straight track. The variation with time of the speed of the car is shown.

What is the ratio $\frac{\text{distance travelled between } 6\text{s and } 12\text{s}}{\text{distance travelled between } 0\text{s and } 6\text{s}}$?

A 1

B 2

C 3

D 4
