

Answer D

- 13) g proportional to $1/r^2$
when $r = 2$, $g = 0.25(64) = 16$ units
when $r = 3$, $g = 64/9 = 7.11$ units
when $r = 4$, $g = 64/16 = 4$ units

Answer A

- 14) $a = GM/r^2 = a$
