

18 Using $pV = nRT$,

$$\frac{p_1 V_1}{T_1} = \frac{p_2 V_2}{T_2}$$

$$\frac{(1.0 \times 10^5)(0.025)}{300} = \frac{(5.0 \times 10^5)V_2}{600}$$

$$V_2 = 0.010 \text{ m}^3$$

Answer: C
