

		mag of max density decreases increases decreases
27	B	Using $V_p I_p = V_s I_s$, $\frac{V_p}{V_s} = \frac{I_s}{I_p}$, and $\frac{N_p}{N_s} = \frac{V_p}{V_s} = \frac{I_s}{I_p}$, Since $\frac{N_p}{N_s} = \frac{1}{2}$, $\frac{V_p}{V_s} = \frac{1}{2}$ and $\frac{I_p}{I_s} = 2$.
28	C	When the maximum speed of the electrons changes, the minimum wavelength of
