

		Since $N_s \propto 2^{-1}$, $V_s \propto 2^{-1}$ and $I_s \propto 2^{-1}$.
	28	C When the maximum speed of the electrons changes, the minimum wavelength of the X-rays <u>must</u> change. If the maximum speed of the electrons decreases, the minimum wavelength of the X-rays increases, and vice versa.
	29	B Option B is the de facto statement of the Heisenberg uncertainty principle. Option
