

		$d_y = \left(\frac{P_y}{1.5} \right) = 0.02$
23	A	$I_2 = 3I_1$ $\frac{E}{\left(r + \frac{R}{2} \right)} = 3 \frac{E}{(r + 2R)}$ Solving, $r = \frac{R}{4}$

No.	Answer	Solution
24	B	For option B, when Y is at the top in contact with X, the n.d. between X and Y is
