

No.	Answer	Solution
1	C	Mass of a smartphone = 150 g Using $g = 10 \text{ m s}^{-2}$ Weight of smartphone $= 0.150 \times 10$ $= 1.5 \text{ N}$ $= 150 \text{ cN}$ Note: $1.5 \text{ cN} = 0.015 \text{ N}$ $1.5 \text{ dN} = 15 \text{ N}$ $150 \text{ dB} = 1500 \text{ N}$ $1 \text{ cN} = 0.01 \text{ N}$ $1 \text{ dN} = 10 \text{ N}$
2	A	Use $E = BIl$
