

		$= 1.0 \text{ N}$
21	B	Resistance of uniform, cylindrical wire $R = \frac{\rho l}{A} = \frac{\rho}{A} l$ $= Gl$ where $G = \frac{\rho}{A}$ is the gradient of R-l graph. Resistance of composite wire between the two ends $R' = \frac{R}{4}$ $= \frac{GL}{4}$
22	A	The sum of the p.d. across the resistor and the thermistor is 3.0 V . The
