

		or travel, not at right angles to its direction of travel.
27	B	Option A: Valid ${}_{83}^{210}\text{Bi} \rightarrow {}_{83}^{210}\text{Tl} + {}_2^4\alpha$ Option B: Not valid ${}_{82}^{208}\text{Pb} \rightarrow {}_{81}^{208}\text{Tl} + {}_{-1}^0\beta$ not valid. The valid equation is ${}_{82}^{208}\text{Pb} \rightarrow {}_{83}^{208}\text{Tl} + {}_{-1}^0\beta$ Option C: Valid ${}_{84}^{212}\text{Po} \rightarrow {}_{82}^{208}\text{Tl} + {}_2^4\alpha$ Option D: Valid ${}_{81}^{208}\text{Tl} \rightarrow {}_{82}^{208}\text{Tl} + {}_{-1}^0\beta$
28	B	An α particles consists of two protons and two neutrons
