

		Option D: kJ min^{-1} is 1000 J per min , is a unit of power.
2	A	$V_{w+s} = V_w + V_s$ $V_s = V_{w+s} - V_w$ Absolute uncertainty in the volume of stone calculated, $\Delta V_s = \Delta V_{w+s} + \Delta V_w$
3	C	Option A: acceleration is rate of change of velocity which is a vector
